

Acronyms used in this report: Blk = Blocker · Crt = Critical · Maj = Major · Min = Minor · Inf = Info · N/C = Not Computed · N/A = Not Available · QG = Quality Gate · LOC = Lines of Code · FP = False Positive

Platform SonarCloud
Data Extracted On Sonar dump taken on 08/06/2026 23:06

1. Assurance Summary

Service faces notable quality challenges across its 17 repos, with 5 repos failing the Quality Gate due to reliability and security rating failures. There are 22 critical code smells outstanding, which pose a direct risk to long-term maintainability. Coverage (avg.) is 66.1%, which is low and below the threshold required for safe and reliable service operation. The 43 major vulnerabilities and 53 security hotspots require review to reduce security risk. Nine inactive repos add noise to the portfolio and should be confirmed as no longer required. The 135 false positives and 752 accepted issues, with a significant number lacking justification, reduce governance transparency and audit readiness. This combined posture reduces confidence in meeting GDS Service Standard 14 for reliable and maintainable live service operation.

Path To Green: The team should prioritise resolving the 5 Quality Gate failures and the 22 critical issues, improve average coverage above 70%, and add justifications for all unjustified false positives and accepted issues to restore governance visibility.

Quality Gate Status	11 passed 5 failed 1 not computed Failed Repos: • CustomerCache.App.CustomerAPI: reliability rating = 3, 2 critical issues, 5 major issues • Identity.App.AccountManagement: security rating = 3, 5% coverage, 1 critical issues, 24 major issues • Identity.App.Content: 86.3% coverage, 4 major issues • Identity.App.Registration: security rating = 3, 1 critical issues, 2 major issues • Portal.App.Web: reliability rating = 3, 32.78% coverage, 24.2% duplicates, 1 critical issues, 17 major issues
Issues (Total)	Bugs: 16 Vulnerabilities: 43 Code Smells: 960 Security Hotspots: 53
Coverage & Duplication	Coverage (Avg.): 66.1% Duplication (Avg.): 2.5%
Configuration & Missing Data	No configuration gaps identified for this group.
Governance & Hygiene	9 inactive projects with no recent analysis. 4 stale branches (90+ days) across 2 projects. 135 False Positives, 25 without justification. 752 Accepted issues, 136 without justification. Portal.App.Web has 13.1% duplication, above the 3% threshold.
